

**FOREMAN** USA<sup>®</sup>  
locker systems

## FOREMAN<sup>®</sup> Outdoor Lockers

FOREMAN<sup>®</sup> Recreational Lockers are built for both indoor and outdoor use, perfect for golf clubs, beaches, and amusement parks. Made from solid phenolic panels and extruded aluminum, they come with a 10-year warranty for all-season durability.

### Security

FOREMAN<sup>®</sup> collaborates with a wide array of lock manufacturers to deliver cutting-edge solutions to our clients. Our innovative technology and meticulously crafted designs seamlessly integrate with leading lock systems, including hard-wired RFID locks by Gantner, Coin-Operated Locks by SAG, and various distinguished names within the U.S. lock industry.

### Weather Resistance

- Ideal for parks, beaches, and poolside areas.
- Resistant to moisture, UV rays, graffiti, and extreme temperatures.
- Perfect for high-traffic areas and demanding outdoor environments.
- Suitable for water parks, sports facilities, and more.
- Phenolic material prevents swelling, rust, or corrosion.

### Design Versatility

- Available in 1-6 tier configurations.
- Wide range of locking mechanism options to fit your needs.
- Customizable design options to fill available sq. ft.
- Multiple color choices and finishes to match your facility's theme.
- Overhanging slope top roof to enhance drainage.
